Digital Wallet))))

Apple Pay

Apple Pay® is easy to use and works with your iPhone ® 6 or above and Apple Watch®. To pay in-store, look for the contactless and/or Apple Pay symbol at checkout. Hold your phone over the contactless payment terminal and confirm the purchase using your fingerprint or passcode. Your phone will vibrate and beep to indicate successful payment. For Apple Watch users, hold your watch near the terminal and double-click the side button. Your watch will also vibrate and beep to indicate successful payment.

For more information on Apple Pay or to view a list of the merchants where Apple Pay is accepted, please visit apple.com/apple-pay.

Apple Pay, iPhone and Apple Watch are trademarks of Apple Inc., registered in the U.S. and other countries.

SAMSUNG pay

Samsung Pay® makes transactions easy. Just swipe up to launch the app, secure with authentication by either your fingerprint or passcode and hover over the card reader to pay. It's safe and your purchases remain yours alone. Samsung Pay keeps your payment information separate and doesn't store or share it, so you can pay without worry.

G Pay

Google Pay® allows you to shop in stores, in apps, and online. With Google Pay you can simply unlock your phone, place it near a contactless terminal, and you're good to go. You don't even have to open an app. Tap and pay is that fast and easy.
